PROFESSIONAL EXPERIENCE

Software Systems Engineer 1

HP Inc. (Bengaluru) | Aug 2023 - Present

- **Key contributor to HP Print AI's launch of the industry's first intelligent print experience.**
- Developed **scalable email/webmail printing workflows** using Spring Boot (Java) and Node.js (TypeScript).
- Led **end-to-end design and launch of mobile-first Flutter web UI**, improving onboarding speed and user flows for customers and B2C print jobbers.
- Created and maintained a **cohesive design system and custom branding** for the internal AI Stack platform (Next.js, Figma), now used by 500+ employees; developed custom prompts enabling text-to-image generation within the stack.
- Conducted **user research for print workflow optimization**; analyzed feedback and data to inform feature updates and improve usability.
- Collaborated with **cross-functional teams**—engineering, product, and AI—to deliver 15+ innovative solutions from internal hackathons.
- Designed **Splunk dashboards and managed 7+ cloud microservices**, ensuring reliable monitoring and incident detection for millions of IoT printers.

Research & Development Intern (Feb 2023 – July 2023):

- Designed and implemented **COE BOT with Spring Shell and Spring Boot**, automating Splunk dashboard and alert generation. Integrated **smart API-driven monitoring** for both proactive and reactive incident response, streamlining performance oversight and operational workflows.

Product Designer

SNS Square (Remote)

- Led **end-to-end UX/UI design for Square bridge**, a student recruitment platform serving students, recruiters, and placement officers.
- Conducted **user research and usability testing with 200+ candidates**, increasing engagement by 45%.
- Created a **unified design system and 150+ UI screens** for portfolio builder, recruiter search, and officer dashboards.
- Managed and mentored a team of **3+ designers**, ensuring design consistency and adoption of user-centered, component-based methodologies.
- Delivered **detailed UX documentation and interactive Figma prototypes**, achieving a 98% design-to-development implementation accuracy.
- Designed **advanced student portfolio and recruiter dashboard features**, reducing candidate discovery time by 40% and PO workload by 35%.
- Collaborated closely with **product and backend engineering (Node.js, MongoDB)** for seamless handoff and technical integration.

Interaction Design Intern

PeopleGamez.com (Remote) | Nov 2022 – Jan 2023

- Designed **gamified HR experiences** and developed user flows, interaction models, and 100+ game assets.
- Created a **design system with performance dashboards** and collaborated on rapid prototyping with product and engineering teams.

Freelance Designer

Various Clients (Remote) | 2020 – 2023

- Delivered **branding, UI/UX, and creative design solutions** for a design studio, resorts, and multiple companies while pursuing a college degree.
- Managed **end-to-end design projects across web, mobile**, and print for diverse business needs; collaborated remotely with clients to meet business and user goals.

EDUCATION

Sona College of Technology

Aug 2019 – May 2023

B.E in Computer Science and Engineering

CGPA : 8.9/10

TECHNICAL SKILLS

Design:
Product design, UI/UX (web & mobile), design systems, prototyping, Micro-interaction, accessibility, usability testing, Branding, Illustration, Game Design
User Research:
Qualitative & quantitative analysis, personas, journey mapping, A/B testing
Design Tools:
Figma, Adobe CC Suite, Protopie, Spline, Unity, penpot, Miro, Rive, Blender
Frontend:
React, TypeScript, HTML, CSS, Flutter, ThreeJS, Dev handoff, GSAP
Backend & Integration:
Node.js, Java, Python, Flask, Spring Boot, API design, C#, DevOps
Cloud/Platforms:
AWS, Docker, Firebase, PostgreSQL, CI/CD, Vercel, Supabase, Sanity CMS
AI & Data:
LLMs, AI-based UX, NLP, Splunk, data-driven features, Prompt Engineering
Collaboration:
Design leadership, Agile/Scrum, team mentoring, stakeholder engagement

ADDITIONAL EXPERIENCE

- Developed **multiple UX case studies and prototypes** spanning diverse domains.
- Created "**Foodie Buddies**"—a dating app for food enthusiasts with custom user journeys and social features.
- Built "**Desirable**"—a platform for customer and furniture manufacturer connections and product configuration.
- Created **personal game assets and Released games on the Play Store**.
- Mentored and conducted **UX/UI design workshops for 100+ students**.
- Active participant in Bangalore tech meetups and design communities.
- Built a **portfolio of case studies, personal projects, and freelance work** covering end-to-end product design and creative development across platforms.
