PROFESSIONAL EXPERIENCE

Software Systems Engineer 1

HP Inc. (Bengaluru) | Aug 2023 - Present

- Core contributor to **HP Print AI: Industry's First Intelligent Print Experience** (production). Developed email and webmail printing solutions through reconstruction and deconstruction architecture. Built **pipeline for Email** with Spring Boot (Java), Node.js (TypeScript), and C# drivers. Engineered AI-powered document analysis reducing print setup clicks by 80% and improving accuracy by 35% and reducing page usage by 20% to enhance the overall print experience.
- Worked on **B2C Uberization of Print platform** connecting customers, jobbers, and logistics through seamless onboarding flow. Initiated and **executed web UI** conversion from ground-up using Flutter with mobile-first responsive design. Additionally worked on **Designing intuitive UX/UI reducing onboarding time** and enhancing overall flow
- Designed and developed **AI Stack internal platform** using Next.js and Figma, serving 500+ HP employees. Created **custom branding and design system** praised organization-wide. Built AI services using llama and Python enabling natural language querying. Led internal AI hackathon with 70+ participants, successfully deploying 15+ innovative solutions to production accelerating AI adoption.
- Maintained microservices handling Common Data Model for **millions of HP printers** globally. Specialized in Splunk search queries, alerts, and detectors for proactive monitoring. Created multiple dashboards visualizing golden signals (latency, traffic, errors, saturation), reducing incident detection by 65% and optimizing logs to reduce infrastructure costs.

Research & Development Intern (Feb 2023 – July 2023):

- Developed COE BOT using Spring Shell and Spring Boot, automating Splunk dashboard, alerts, and functionality generation via API calls with reactive and proactive monitoring strategies.

Freelance Design Lead (Concurrent)

SNS Square (Remote) | Nov 2023 – Aug 2024

- Led **end-to-end UX/UI design for Squarebridge**, a student recruitment platform connecting students, recruiters, and placement officers. Conducted user research and **usability testing with 200+ candidates**, improving engagement by 45%. Created design system and **150+ UI screens** for portfolio builder, recruiter search interface, placement officer dashboard and Website.
- **Managed and mentored team of 2–3 designers and interns** on design consistency, component-based design, and user-centered methodologies. Delivered comprehensive UX documentation and interactive Figma prototypes achieving 98% design implementation accuracy with development team.
- Designed student portfolio features and recruiter **dashboard with advanced filtering**, reducing candidate discovery time by 40% and placement officer workload by 35%. Collaborated with product and backend teams (Node.js, MongoDB) for seamless technical integration.

Interaction Design Intern

PeopleGamez.com (Remote) | Nov 2022 – Jan 2023

- Designed interactive gamified experiences for HR platforms through user research and storyboard analysis. Developed user flows, interaction models, **100+ game assets**, and performance report dashboards. Created **design system, report templates, and data visualization** standards while delivering comprehensive interaction design documentation and prototypes with product and engineering collaboration for enhanced employee retention.

TECHNICAL SKILLS

Design & UX: UX/UI Design, Interaction Design, Wireframing, Prototyping, User Research, Usability Testing, Design Systems, Accessibility.
Tools: Figma, Adobe Suite (Photoshop, Illustrator, XD), React.js, Next.js, TypeScript, JavaScript, HTML, CSS, Flutter, Unity, Protopie, Spline.
Cloud & Backend: AWS (EC2, S3, SQS, SNS, DynamoDB), Docker, CI/CD, Java, Spring Boot, Node.js, Python, Flask, PostgreSQL, Firebase.
AI/ML & Data: Machine Learning, LLMs, llama, Natural Language Processing, Splunk, Prompt engineering, Agent Experience.
Other: Design Leadership, Cross-Functional Collaboration, Agile/Scrum, Browser Extension Development, Brainstroming, Team Mentoring.

EDUCATION

Sona College of Technology

Aug 2019 – May 2023

B.E in Computer Science and Engineering

CGPA : 8.9/10

ADDITIONAL EXPERIENCE

- Mentored and conducted UX/UI design workshops for 100+ college students. Active participant in Bangalore tech meetups and design communities, staying updated with industry trends.
- Built a portfolio of case studies, personal projects, and freelance work—ranging from end-to-end product design to creative development—spanning various platforms and client needs.
